# THE ECOTECHSOFT ELECTRICITY HEALTH CHECK

## PROTECT YOUR BUSINESS FROM HIGH COST ENERGY

South Australia suffers the highest electricity prices in the world. It is expected that prices will continue to rise. South Australia is running the risk of having electricity prices that exceed the actual value of electricity as a resource.

Business can effectively reduce the cost of electricity per unit of output by using the resource in a more efficient way.

## ECOTECHSOFT CAN HELP!

An Electricity Health Check will assist you in reducing electricity costs while reducing your business' environmental impacts.

## BE PROACTIVE AND PROTECT YOUR BUSINESS FROM RISKS ARISING FROM CLIMATE CHANGE

The Electricity Health Check comprises a Level 1 audit of your entire business, including an analysis of your energy bills and, where appropriate, we will assist you in scoping a better contract.

You will receive a comprehensive electricity health report that includes the details and economic calculations of the audit and lists actions that you can undertake to reduce your cost of doing business. The actions are grouped in:

### NO COST

Actions that can be implemented immediately

### LOW COST

May involve spending small amounts of money

### ENGINEERING

Actions that involve more planning
